Building Competence for Sustainability

# COLLECTIVE LEADERSHIP

## FOR SUSTAINABILITY COMPASS

# Levels of application

<b>Expanding personal leadership competence</b>	<b>Enhancing holistic leadership capabilities, developing skills to lead in conjunction with others, strengthening individual sustainability leadership.</b>
<b>Empowering teams of collaborating actors</b>	<b>Enhancing joint action, strengthening team performance, managing the interface between hard and soft skills effectively, improving action plans.</b>
<b>Building communities for change</b>	<b>Enhancing the impact of cross-sector collaboration, aligning organisations, departments or cross-sector networks towards joint action, improving large-scale change processes.</b>
